

Foster dad - Dave with son Austin and baby **Jack** at 11 days old.

Our first adoption!

Jack came into our care in December 2005 at 11 days old. He has been lovingly cared for by one of our Homes with Hope foster families, Dave and Misty Dudley. Jack was exposed to cocaine at birth and has had frequent visits to the doctor and several trips to the hospital. The whole Dudley family (*Dave, Misty, Amber, Danielle, and Austin*) has provided quality care for Jack and we are very appreciative.

In July the judge officially terminated the birth parents' rights and gave the Dudleys legal risk status. The case has been transferred to CPS adoption. Just what the Dudleys had hoped for!

A mile-stone for Jack for the Dudleys ... and for Homes with Hope!

Sad days of Summer when we said goodbye to several children in our care

Stephanie and Tom Heard (along with their three children - Thomas, Leah and Luke) said goodbye to **Bobbi** the first week of June after taking care of her for the last 12 months. She is happily living with her father.

Ann and Kent McKitrick (along with their three children - Megan, Grant and Kendall) said goodbye to **Kenneth** the last week of June after taking care of him for the previous 14 months. He is being cared for by his Aunt.

Arlene and Corey Hoffman (along with their three children - Joe, Daniella and Amanda) said goodbye to **Harley** the second week of July having taken care of her for 2 1/2 months. She is now living with her father.
